

## baby e

We have updated some tables of our scrubber baby at 230V.

### **1104-10 R00**

The table of the squeegee assembly will have the indication of only the standard rubbers. Other rubber types will be present in our squeegee manual.

### **1110-10 R02**

pos. 9 in the design has been moved to the right side of the motor, because it is not included in the motor assembly (pos. 11).

### **1112-10 R01**

We have corrected some descriptions and quantities.

On request the updated tables.

Thanking you for your kind attention, we remain

with best regards
